DIES SUDDENLY

Mr. S. J. Newell Was Found Dead at South Ripley Last Night and Brought to This City—Will Be Buried Tomorrow.

Last night about 7:30 o'clock a number of persons coming up the grade at South Ripley found Mr. S. J. Newell lying prostrate in the roadway. When the Maysville accommodation arrived at that point, he was placed in the baggage car of the train and brought to this city. He was taken to the Coughlin & Co. undertaking parlors and medical aid summoned. When help arrived, he was found to have expired.

Mr. Stonewall Jackson Newell was born in this city on January 2, 1871, being 45 years of age at the time of his death. He spent his entire life in this city, living with his mother on Limestone street. He was a barber by trade, being employed by Mr. Frank Taylor on East Second street. He was known all over the city and well liked by every one.

He is survived by his mother, four brothers, Messrs. Joseph, Ruel and Claude of this city and William of Dayton, Ohio, and two sisters, Misses Anna and Mary also of this city.

The funeral will be held from the home on Limestone street Saturday afternoon at 2 o'clock with services conducted by Rev. A. F. Stahl. Burial will be made in the Maysville Cemetery.

SEE THE AEROPLANE GO UP

The Epworth League of the Third Street M. E. Church aims always to be at the head of the procession. The League is ready at all times to take advantage of modern movements for the building up of the society. Sunday will be known throughout League-dom as "Epworth Herald Day." The Maysville League has received a supply of material to use in this service, chief of which is an aeroplane which will be placed on exhibition at this service and at the proper time will take a flight and will probably go above the clouds. It will be an interesting sight. Not only will it be interesting but it will be thrilling. A record crowd is expected to witness the ascension. No charges for admission; everybody will be made welcome. Come early and get a choice seat that you may have a good view of the flyer.

ENTERTAINED WOMAN'S CLUB

Mrs. George Longnecker, President of the Mason County Woman's Club invited the members of the Board to hold their meeting at her country home near Washington last Wednesday. Soon after arriving they were asked to the dining room where covers were laid for ten and Mrs. Longnecker never served a more bountiful dinner. The members who were fortunate enough to be present came home not caring how soon the President will ask them to meet with her again.

SPLENDID RECITAL

The recital of Miss Florence Wadsworth Wallace at the Washington Opera House was heard by a great number of people. Miss Wallace's splendid soprano voice was trained to meet every note alike and she scored a splendid success. Miss Elizabeth Barbour accompanied her on the piano.

WALSH BACK ON THE JOB

Sergeant Harry Walsh, who resigned from the Police force a few weeks ago, has been reinstated in his old position as night sergeant. He was on the job last night.

GRANTED LICENSE

Mr. Fleming Applegate, 18, and Miss Opal Latham, 16, both of Toleboro, were granted a license to wed here last night by County Clerk J. J. Owens.

THE PRESIDENT'S MESSAGE

The President is apparently satisfied with the terms of the so called eight hour law, enacted under pressure during the previous session of Congress, as it now stands, although it has been pronounced as an unworkable bit of legislation, and the constitutionality of its being has been adversely pronounced upon by a federal court. The President appears to be willing to stand or fall by that statute. He leaves the application and development of the alleged eight hour law, a burden for Congress, to assume and is content to compel the situation to measure and fit itself by the law as it now reads:

The President make two very important and wisely stated recommendations. The first of these sees the necessity of reorganizing the Interstate Commerce Commission, both as to increase membership and facilities to properly handle the volume of work which is handed over to that body for investigation and in many instances first decision.

The Interstate Commerce Commission stands as the umpire between the great forces of transportation and the people.

A commission of that character should be amply equipped to settle all questions arising for judgment without encountering the necessity of costly delay.

The other of the two most important recommendations contained in the measure is that which removes, perhaps for all time, the possibility of this country adopting the Canadian method of settling industrial disputes, i. e. in part by the plan of compulsory arbitration. That which the President happily suggests as the thing to do is to provide for investigation into the being and the nature of all industrial disputes, so that the public may have the opportunity to become acquainted with the facts, the issue of which make the difference before the force of a strike is resorted to.

The President relies upon the expression of public opinion as the inspiration for all succeeding acts for arbitration and conciliation in the final settlement of all disputes between the men of labor and capital.

The President phrases the subject in his most agreeable manner and will, we believe, have the hearty support of our people in his effort to provide a way for industrial peace.

The recommendation which would authorize the President in case of military necessity to assume control of such portions of the railways as the case demands may be regarded as a measure to prepare for two possibilities—a state of war from without, and a state of industrial warfare from within.

The President, it was generally understood, gave the Webb bill the benefit of his indorsement on its introduction to Congress during the last session. So his reinforcement of the proposal to facilitate our export trade is an indication of the President's desire that the matter shall have the earnest attention of Congress during the present session. The measure has the virtue of conciseness.—Commercial Tribune.

AS MR. GOMPERS SEES IT

Mr. Samuel Gompers, President of the American Federation of Labor, has the art, even when he is wrong as he sometimes is, of putting his point most effectively.

Mr. Gompers made a speech a few days ago at a labor banquet in New York city, in which he attacked efficiency methods in business and scientific management when those devices are used only for the advantage of the employer. In that connection, Mr. Gompers said:

"The employee is like the lady whose husband said:

"Learn to cook, darling, and I'll give you a surprise."

"She took a six months' cooking course, and then brought home her diploma proudly. She could now cook like an angel.

"Bring on my surprise," she said.

"This is it," said her husband, smiling, and he rang for the cook and discharged her then and there."

Unquestionably this little anecdote describes in a remarkably clear manner the opposition that many labor leaders and labor unions display toward scientific management. Their error is in assuming that employers will find it to their interest to treat labor in the fashion the husband mentioned above treated his wife.

Mr. Gompers' homely illustration can be carried a little further to advantage. Suppose the gentleman did dismiss his cook when he found his wife could do that work and required her to do it, did he not lose in the end thereby? Is it not more than probable that the lady was doing other things to make life happy in that home and was saving money in other ways? If her husband determined to treat her only as a cook, he must have lost all the other things, or perhaps the lady was satisfied and they bought an automobile instead of keeping a cook.

There is no proposition in commerce more plain than that it is to the interest of the employees for the employer to prosper. Higher wages can only be sustained when production continues high. Scientific management, the reduction of waste, etc., are, in the long run, more beneficial to the employee than to the employer.—Louisville Evening Post.

IS AMERICA AWAKE?

The quick rally of British commerce is shown conclusively in the board of trade figures recently published. Exports were practically sliced in two by the coming of the war in August, 1914. However, before the war had been in progress a year British industries had rallied, and August, 1915, showed a 30 per cent gain over the first month of war.

More important, every month since August, 1915, has shown an improvement over the corresponding month a year earlier. Still more important, the months of May, June, and July, 1916, showed a gain not only over the corresponding months of 1915, which were also war months, but even over the same period of 1914, when peace ruled.

The total British exports for the first nine months of 1916 were actually greater than the total for the corresponding months either of 1915 or of 1914.

Will America ignore this warning?

Britain at war is exerting her best talents to conserve her foreign trade. The United States at peace is doing little but develop a munition trade which will end with the war, while Britain's trade will continue to grow with the advent of peace.—Chicago Tribune.

FEDERAL FOOD INQUIRY BEGUN

Is Assuming Definite Form—Indications Show It Is Very Comprehensive.

Washington, December 6.—The Federal investigation of the high cost of living began today to take definite form, with indications that it would be one of the most comprehensive ever undertaken and would extend to every section of the United States.

Not only is a sweeping inquiry into the cause of the soaring cost of foodstuffs contemplated but the recent pinch in the coal supply and its resultant price advances also will be made, in all probability, the subject of broad investigation.

From President Wilson down, officials began to cope in earnest with the problems presented by the situation. The President took under consideration preliminary reports which, with others yet to come, will form the basis for recommendations he may make to Congress.

A dozen speeches on the subject were made in the House and several resolution inquiries were introduced. These were referred to committees without discussion, most of them going to the Interstate and Foreign Commerce Committee, of which Representative Adamson, who is opposed to embargoes, is the chairman.

Department of Justice officials held all-day conferences with members of the Federal Trade Commission and District Attorney Anderson, of Boston, in charge of the department's investigation and here to formulate a definite plan of conducting the nationwide inquiry. About fifty picked investigators of the department's bureau of investigation were reported to be at work throughout the country gathering data which will determine the attorney general's course of action.

The Interstate Commerce Commission probably will be called upon to aid by furnishing data relative to shipments of foodstuffs, and Mr. Anderson will confer with commission officials before his departure. Grand jury investigations at New York or Chicago, or both, of the reasons for rising prices are said to be still under consideration.

With the program still in process of formation, there were increasing indications that officials were considering the situation from three angles, namely:

1. Determination of the actual causes of the rapid rise in foodstuffs and coal, whether it was due to natural economic laws, to the unwarranted action of individual dealers and producers in advancing prices, or whether there exist agreements among groups of dealers of producers to boost prices.

2. Vigorous prosecution of persons or firms, if any, who, by violation of existing laws in making agreements to raise prices or otherwise have contributed to the upward trend of prices.

3. Enactment of legislation to remedy the present situation and to prevent its recurrence.

The situation is in the first of these stages so far as the Department of Justice is concerned. With its investigators already at work, department officials called upon the Federal Trade Commission for co-operation and were promised all data which the commission already may have bearing on the situation and further aid in obtaining information which can be acquired without adding materially to the burden imposed on the commission by other pending inquiries.

In addition, department officials are understood to be considering the advisability of investigating such organizations as the Chicago Board of Trade, the Chicago Butter and Eggs Exchange, the Elgin Board of Trade, and the New York Produce, Sugar and Coffee Exchanges, with a view to ascertaining by what practices the market values of certain foodstuffs dealt in by the bodies are determined. An inquiry into the amount of foodstuffs held in all the cold storage establishments of the country and possibly as to the volume of grain stored in elevators also is said to be under consideration.

Complaints have reached the department that coal prices were advanced recently because, in large measure, of the activities of certain independent dealers, not heretofore in the business who are reported to have contracted with the chief coal companies for virtually their entire unsold output for the winter. It was charged that these dealers, securing fat profits, had tried to corner the available supply and thus forced up prices. These and other complaints under investigation will be considered with a view to prosecution, if warranted under Federal laws, which require that the supplies in question must have been for interstate commerce.

Proposals in Congress looking to a remedy for the problem ranged from a decision of the omnibus hatcheries bill which would provide for fish hatcheries in twenty States, to a declaration by Chairman Henry, of the Rules Committee, after a conference with the President that he thought Congress would conduct an investigation

gress would conduct an investigation of the high cost of living. They embraced resolutions by Representatives Borland and Dill, providing for general investigations, a resolution by Representative Campbell of Kansas, which would provide for an embargo on boots, shoes and manufactured leather goods, and a bill by Representative Sabath of Illinois, designed to aid Federal employees to meet the situation by increasing from ten to twenty per cent, the salaries of those earning up to \$1,800 annually.

WOMAN SCRIBE CONVICTED OF MURDERING POLITICIAN

Thompson Falls, Mont., December 6.—Miss Edith Colby, newspaper woman, today was found guilty of murder in the second degree for shooting and killing A. C. Thomas, a politician who, she stated, had insulted her. The verdict carries a penalty of ten to twelve years imprisonment.

Before the jury retired last evening the defense in an impassioned plea asked that either acquittal or the death penalty be the verdict.

Miss Colby came to Thompson Falls from the Pacific coast and became a reporter on the local paper. In this capacity she had occasion to interview Thomas frequently. On the day preceding the killing Miss Colby and Thomas met on the street, and he is alleged to have made accusations reflecting on the truth of stories she had written concerning him during the heat of a bitter newspaper fight.

The shooting took place in front of Thomas office. Witnesses said not a word was passed before Miss Colby fired three shots into Thomas' body.

On the witness stand insanity experts for the defense testified that for several months Miss Colby had been on the verge of madness. Her aged mother swore that Miss Colby's mind had been slightly unbalanced as the result of several unfortunate love affairs.

Miss Colby collapsed yesterday when Special Prosecutor B. K. Wheeler in closing his argument asked the jury: "Would you send Miss Colby back to the arms of Al Germain?"

Germain, a newspaper pressman of Seattle, has been a constant visitor to Miss Colby while she has been in prison here and was one of the witnesses for the defense. His name previously had not been brought into the case.

The shock of Miss Colby's arrest is believed to have caused the death of her father in Tilton, N. H., a few days after the killing here.

One blundering attempt to tell the exact truth can create more false impressions than half a dozen polished lies.

COUGHED NIGHT AND DAY

How This Little Orphan Boy Was Cured.

We want the people of Maysville to know that all letters like the following are truthful and genuine:

Towanda, Pa. "I took a little orphan boy to live with me and last Christmas he contracted a hard cold which developed into bronchitis. He was very ill and a bad cough set in so that he coughed night and day. After trying everything, nothing seemed to do him any good, until along in February I got a bottle of Vinol. After using half the bottle his cough began to improve, and two bottles entirely cured his bronchitis and he gained in weight so that he doesn't look like the same child." Harry A. Stephenson, Towanda, Pa.

The reason that cough syrups fail in such cases is because they are palliative only, while Vinol removes the cause being a constitutional remedy in which are combined beef and cod liver peptones, iron and manganese peptones and glycerophosphates. It strengthens and revitalizes the entire system and assists nature to expel the disease. John C. Pecor Drug Co., Maysville. Also at leading drug store in all Kentucky towns.

CARRANZA WILL SIGN PROTOCOL, IS BELIEF

Mexico City, December 6—The general impression among high government officials here is that the protocol drafted by the Mexican and American commissioners at Atlantic City and having as its object a settlement of the point at issue between Mexico and the United States will be signed by General Carranza, if he has not already affixed his signature to it. It is thought there may be slight changes in the wording of the document, but that the main points of it will be agreed to by General Carranza. Alberto J. Pani, one of the Mexican commissioners, has been delayed here, but is expected to reach Queretaro tomorrow and will probably leave there immediately for the United States with General Carranza's reply to the protocol.

May Telegraph

Washington, December 6—It is believed here that Mr. Pani will cross the border at Larado, perhaps tomorrow, and make a telegraphic report from there. If he reports the ratification of the protocol, the commission will convene here Friday, and adjourn until he can reach Washington.

Under instructions from the members of the commission the attaches of both groups have spent much of the time since the adjournment at Atlantic City in drafting tentative programs for further discussion. Luis Cabrera, chairman of the Mexican commission, in an interview credited to him recently to the subjects to be discussed after the ratification of the protocol as of "minor importance," but the program drafted by the American commissioners includes a list of subjects regarded by them as of great importance.

The Americans, it is understood, will insist upon the agreement to an addenda to the protocol that will serve as a guarantee that the Carranza government will respect and protect the rights of Americans and other foreigners in Mexico. The Mexicans probably will be asked to agree to the amendment or annulment of all decrees that provide for confiscation of foreign owned property, and for the readjustment of decrees providing virtually prohibitory schedules of taxation on mines and other industries.

Pressure will be brought to bear to secure the creation of an international claims commission to pass upon all claims filed since November 20, 1910, the date of the beginning of the Madero revolution.

PROPOSALS FOR 4 U. S. BATTLE SHIPS SUBMITTED

Washington, December 6—Four American shipbuilders submitted proposals to the Navy Department today for the construction of the four gigantic thirty five knot battle cruisers authorized as a part of the 1917 building program. No estimates of cost were included, all the bidders taking advantage of a new provision of the naval appropriation act and offering to build the ships for cost plus from 10 to 15 per cent profit.

The bidders were the Newport News Shipbuilding and Dry Dock Company, the Union Iron Works of San Francisco, the Fore River Shipbuilding company of Quincy, Mass., and William Cramp & Sons of Philadelphia. The only other private builder in the country that might have sought one of the contracts is the New York Shipbuilding Company, which notified the department that its ways already were filled with other work.

Since no direct proposals under the limitation of \$16,500,000 for the cost of hull and machinery of each ship was received, department officials began at once an examination of the most and percentage of offers with the expectation of working out a uniform agreement under which each bidder will receive one of the ships. The Newport News company and Cramps fixed 10 per cent as the profit they desired, while the other two companies suggested 15 per cent, but were willing to leave it to the Federal Trade commission to determine a fair rate.

The Fore River company and the Union works submitted proposals for geared turbine drive for the ships as substitute for the turbo-electric propulsion desired by the department. It was said there was no likelihood that these offers would be acceptable, as department experts went into the question fully before deciding on the electric equipment.

The time fixed for delivery of the ships ranged from forty-eight to fifty-months, and while some modifications may be secured from the bidders, it is practically certain, that the first of the huge vessels will not be ready within four years for a trial to determine upon the thirty-five knot speed for which it is designed. It developed today that the exact tonnage for which the department's plans call is 34,000.

With the battle cruiser contracts awarded, the only portion of the 1917

program remaining unplaced will be three scout cruisers bids for which have been re-advertised and will be opened next month.

WOMAN DEFEATS HUSBAND

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

HOME FOR GIRLS' SCHOOL TO BE LIEUTENANT SAUFLEY HONORED

GIVEN BY DR. W. F. PENNY.
 BAKER, OF HARRODSBURG, KY.

Harrodsburg, Ky., December 6—Dr. W. F. Pennybaker, one of the two surviving members of the once prosperous Shaker colony at Shakertown, seven miles from Harrodsburg, has announced his intention of devoting the property owned by him to a home for the education of worthy girls, whose parents are unable to provide a suitable education for them.

There have been negotiations between Dr. Pennybaker and the Presbyterian Synod of Kentucky to organize the institution, but it is the intention of the donor that the home shall be undenominational.

The property owned by Dr. Pennybaker is worth \$75,000, and the building where he now resides contains 26 bedrooms and a number of spacious halls and other rooms.

OLD BUS DRIVER DIES

(Flemingsburg Times-Democrat)
Henry C. Paxton, in his 85th year, died Tuesday night at his home in this city from the infirmities of age. Mr. Paxton was the oldest native-born citizen of this city and had always lived here save for a short time when he lived in Mt. Sterling while driving stage between Maysville and Mt. Sterling. Mr. Paxton was the last of the ante-bellum stage drivers which the coming of the railroads put out of business. Funeral Thursday and interment in our cemetery.

Mrs. R. B. Holton of the county left yesterday for New York City where she will spend a month.

WALKED RIGHT OUT

And Later Was Walked Back In Again.
—Thomas Lucas Makes Smooth Get Away From the Police Yesterday Afternoon.

Tom Lucas, of the West End made a rather smooth get-away from the police at the headquarters yesterday afternoon when he just walked out of the station.
Lucas was arrested shortly after the noon hour by Officer William Tolle on a charge of using insulting language to a woman. He was taken to the court room to await the arrival of the city attorney in order to try him. The rest of the officers came into the room but were not informed that Lucas was a prisoner. The man was sitting close to Mr. Fizer and leaned over and asked him a question. Mr. Fizer answered the question and arose and went to the door to show the man the direction. Not knowing that he was a prisoner he did not accompany him and Lucas immediately skipped.
A few moments later Officer Tolle missed the prisoner and upon making inquiries found that he had cleared out. The blame could not be placed on no one for allowing him to escape as the majority of the men seated near had supposed that he was merely a loafer.

Officer Throckmorton was detailed to recapture the man. Learning that he was in a house in the West End he kept a lookout for the man. He went to the house and finding that Lucas had just gone he went inside and remained for some time. Lucas came back to the house and the officer nailed him. He was lodged in jail. It is claimed that he has been selling liquor illegally. He will be tried today.

GOVERNMENT EXAMINATION

First grade, or Clerical Examination to be held at the Maysville, Ky. Post-office February 3, 1917.
The United States Civil Service Commission announces an open competitive examination on the date and at the place named above to secure eligibles from which to make certification to fill vacancies in first-grade, or clerical position in the Customs Service; in the positions of deputy collector, clerk, storekeeper, gauger, and storekeeper-gauger in the Internal Revenue Service; and in other positions that require similar qualifications, as they may occur in the United States classified service in the city named or its vicinity. Applicants must submit to the examiner on the day of examination their photographs, taken within two years.

Further information regarding this examination, as well as application blanks, may be secured from Secretary Sixth-Service District, Cincinnati, O., or from local Secretary, Maysville, Ky.

MASON CIRCUIT COURT

In the Mason Circuit Court yesterday the following was the order of the cases tried during the day:

The sheriff reported Mr. Robert Politt as a regular juror, who appeared and took his seat.

William Edgar, charged with selling liquor in local option territory, was fined \$40 and sentenced to 20 days in jail. He was also required to give a \$200 bond for his behavior for the next six months.

Thomas Brewer, on trial for appropriating property for his own use in possession of a common carrier, was found guilty of the offense by a jury and his punishment placed at not less than one nor more than two years in the penitentiary.

On motion the commonwealth asked that the following cases be filed away with leave to redocket: William Boone, selling liquor without license, four counts; William Edwards, setting net in running water to catch fish; Thomas Fields, wilful murder; George Cummins, carrying concealed a deadly weapon.

Aaron Marks was sentenced to two years in the penitentiary for shooting with intent to kill. Marks tried to kill his wife in the latter part of last summer.

DOING FINE

Few people of this section believe that they would live to see the day when Maysville would have a financial institution showing assets of \$1,353,579.77, yet that is what the statement of First-Standard Bank and Trust Company showed yesterday. Their deposits were \$1,017,275.27 yesterday, and \$902,660.78 November 7th, showing an increase of \$104,614.49 in last thirty days. It is only a question of a few months until their assets will pass the Two Million Dollar mark, giving to Maysville one of the largest banks in Kentucky.

They want small accounts as well as large ones and it is their purpose to do everything they can to encourage thrift and savings among all classes of people. To that end they will tomorrow open a Christmas Savings Club and keep their bank open Saturday night, thereby affording an opportunity to all to open an account, which can be done with one, two, five, ten, twenty-five, fifty cents or \$1.
It is believed that the public will show their appreciation of this large and up to date bank by giving it greater support. It deserves it. They pay 3 per cent interest on savings accounts.

RESIGNS AS SUPERINTENDENT

(Bracken Chronicle)
Superintendent A. J. Jolly, who has had charge of the Augusta public schools for almost four years, has resigned, owing to ill health. While here Superintendent Jolly has built up the school until it is recognized as one of the best in the State, and the news of his resignation will be received with regret by the patrons, all of whom recognized his worth as superintendent. His host of friends at this place will hope for his speedy restoration to health. A meeting of the School Board will shortly be held to determine his successor.
